(An Exploration Stage Company)

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

for the Six months ended February 29, 2016 and 2015

(Unaudited - Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

These financial statements have been prepared on the going concern basis, which assumes the realization of assets and liquidation of liabilities and commitments in the normal course of business. The application of the going concern concept is dependent upon the Company's ability to generate future profitable operations and receive continued financial support from its creditors and shareholders. These financial statements do not give effect to any adjustments that might be required should the Company be unable to continue as a going concern and therefore, be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts differing from those reflected in the financial statements. Since inception, the Company has been successful in funding its operations and to date has net issued shares of 112,203,279 for net proceeds of \$13,540,079 averaging \$0.121 per share. The share price at February 29, 2016 was \$0.01 Cdn.

As at February 29, 2016, the Company does not have sufficient working capital to meet its administrative and overhead obligations nor continue with its exploration programs. The Company has relied mainly upon the issuance of share capital and more recently a non demand loan (with no specified terms of repayment) from a director to finance its activities. Future capital requirements will depend on many factors including the Company's ability to execute its business plan. To finance future activities, the Company will be required to enter into joint venture agreements and/or issue share capital through private placements, the exercise of options and warrants, and is actively seeking additional equity financing. There can be no assurance that such financing will be available on a timely basis under terms acceptable to the Company and, therefore, a material uncertainty exists that casts significant doubt over the Company's ability to continue as a going concern. These condensed consolidated interim financial statements do not include the adjustments to assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

These condensed consolidated interim financial statements were prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at February 29, 2016, the Company had a current working capital deficiency of \$262,061 (\$40,077 - August 31, 2015). The Company incurred a net loss of \$915,098 for the six months ended February 29, 2016 (2015 - \$118,472) and had an accumulated deficit of \$16,605,466 as at February 29, 2016 (August 31, 2015 - \$15,690,368).

2. BASIS OF PRESENTATION

These condensed interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34"), as issued by the International Accounting Standards Board, and its interpretations. Accordingly, these condensed interim financial statements do not include all of the information and footnotes required by International Financial Reporting Standards ("IFRS") for complete financial statements for year-end reporting purposes. Results for the period ended February 29, 2016, are not necessarily indicative of future results.

These condensed interim financial statements have been prepared on a historical cost basis except for financial instruments classified as available-for-sale, which are stated at their fair value. In addition these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

BASIS OF CONSOLIDATION

The consolidated financial statements include the accounts of the Company and its subsidiaries:

Subsidiary	Ownership Interest	Jurisdiction	Nature of Operations
Kettle River Resources Ltd.	100%	Canada	Mining and exploration

Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the consolidated financial statements.

(a) ACQUISITION OF KETTLE RIVER RESOURCES LTD.

On November 6, 2015, the Company acquired a 100% interest in Kettle River Resources Ltd. ("Kettle River") which consummated the July 20, 2015 'Plan of Arrangement' (the "Plan") between New Nadina and Kettle River whereby New Nadina acquired all of the issued and outstanding Kettle River common shares.

The value of the New Nadina common shares was calculated based on the issuance of 27,716,711 New Nadina common shares at a price per share of \$0.01 which was the TSX Venture Exchange closing price of New Nadina common shares as August 18, 2015.

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

for the Six months ended February 29, 2016 and 2015

(Unaudited - Expressed in Canadian dollars)

2. BASIS OF PRESENTATION - continued

(a) ACQUISITION OF KETTLE RIVER RESOURCES LTD. - continued

The Plan was approved by Kettle River shareholders on October 16, 2015 and on Nov. 6, 2015 the Kettle River shareholders were issued a total of 27,716,711 common shares of New Nadina.

Management has determined that this acquisition, for accounting purposes, is an asset acquisition and consistent with reporting under IFRS standards.

The aggregate amount of the consideration is \$277,167, calculated by taking into account the issuance of 27,716,711 New Nadina common shares at a deemed value of \$0.01 per share.

The purchase consideration has been assigned based on the relative fair values of the assets acquired and liabilities assumed as follows:

Purchase Price:		
Issuance of 27,716,711 New Nadina common shares	\$	277,167
Total purchase price	\$	277,167
Purchase Price Allocation		
Cash	\$	721
Receivables		3,107
Prepaid expenses		1,906
Exploration and evaluation assets		3
Property and equipment		421
Reclamation deposits		5,000
Accounts payable and accrued liabilities		(24,199)
Due to related parties		(434,775)
Transaction costs (expensed) Note: adjusted from last quarter		724,983
Total purchase price	\$	277,167

New Nadina recognizes \$724,983 in Transaction costs associated with the Arrangement expensed to the pro forma consolidated statement of income (loss) and comprehensive income (loss). The transaction costs represent the fair value of the New Nadina common shares issued in excess of the net liabilities of Kettle River on acquisition.

In addition to the content herein, the financial statement as presented in the "Notice of Annual General and Special Meeting of Security Holders and Management Information Circular" is available on SEDAR filed September 29, 2015, under Schedule F "Pro Forma Financial Statements". The unaudited pro forma financial statements were prepared for inclusion in the Management Information Circular of Kettle River for the October 16, 2015 special meeting of the shareholders and presented for illustrative purposes and were not intended to reflect the financial statements that would have occurred if the events reflected therein had been in effect at the closing date. Actual amounts recorded upon consummation of the transaction will differ from those recorded in the unaudited pro forma consolidated financial statements and the differences may be material.

3. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standard Board ("IASB") using accounting policies consistent with those applied in the Company's August 31, 2013 audited annual financial statements. The Company does not anticipate any significant impact from the application of recently adopted or upcoming standards, amendments or interpretations at this time.

Significant accounting estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods if the revision affects both current and future periods.
